## **President & CEO Message**

Dear Member,

As we get 2023 rolling, this is a great time to make a mental note of some ways to make sure all of us are using best practices with all our digital day-to-day interactions. Here are some easy and quick tips we should all keep in mind to ensure our digital transactions are safe and secure.

- Choose strong and unique passwords. (And make sure you can remember them!)
- Never use unsecured public WiFi for banking purposes.
- If an email looks suspicious, reach out to the sender BEFORE opening, downloading any attachments or clicking on links.

At MPCU we take pride in working every day to ensure our members have a safe, secure, and convenient online banking experience. With your vigilance and cooperation, we can all work together for an even better banking experience.

Sincerely,  
**John J. Murphy**  
President and CEO

## Latest from the MPCU Blog

### Should My Teenager Open a Teen Bank Account? [Expert Advice]

Today, savvy parents know how important it is to teach our teens about money and how to properly manage it. After all, this is the time in their lives when they will likely get their first job and paycheck, so it is crucial that they are aware of how to manage their money as well as the responsibility that comes along with it.

In addition, opening a teen bank account is a great time to reinforce the savings habits we taught them when they were younger and guide them to a path of financial literacy. This will lead to responsible money habits as they begin going to college, living on their own, and working to pay their own expenses.
