Beware of Mobile Text & Phone Call Scams

Dear Member,

In today's digital age, the threat of fraud is ever-present, making it essential to be vigilant and shield your personal information from cunning scams. As scammers become more sophisticated, staying alert is your best defense. By taking proactive and cautious steps, you can effectively protect yourself from potential fraud. Keep in mind that trustworthy organizations like Members Plus are committed to your security and will never request sensitive information through unsolicited communications.

Security Alert: Members Plus will never reach out to request your full account number, Online Banking credentials (password, username, or one-time pin), social security number, debit or credit card details, PIN, or CVV code via phone, text, or email.

If you encounter suspicious calls or messages, trust your instincts and act swiftly to safeguard yourself. Refrain from sharing any personal information, hang up immediately, and avoid returning the call. Consider blocking the number to prevent further contact. Your vigilance is crucial in securing your financial information.

If you suspect any fraudulent activity or feel uneasy about an interaction, don't hesitate to contact us at 781-905-1500. Reporting such incidents enables us to investigate and take necessary measures to protect you and other members. Your dedication to security is vital in maintaining your financial well-being. Stay informed and stay safe! Visit our [Fraud Resources Page](#) for more information.

Your security is our utmost priority, and we are dedicated to safeguarding our members every day.

Sincerely,
John J. Murphy
