Welcome 2025 Interns

We're excited to have them on board!

For the fourth consecutive year, through our Summer Internship Program with Everett High School, MP will integrate the students with our marketing team so they can apply what they learn in the classroom to a hands-on setting in the business world. The MPCU internship program will provides students with professional work experience, leadership development skills, and school-to-career readiness, with direct training and mentoring with managers. The interns will also have an opportunity to volunteer in the community and increase their knowledge of the Credit Union industry and philosophy of "people helping people".

Our interns are interested in pursuing a career in marketing. During their time at MPCU, they will be assisting in various marketing activities including social media management, content creation, and community outreach with MPCU's Back to School Backpack Drive, as well as providing support to retail and back office departments.
